

Tonight

Kutless

I hear the voice of thousands all gathered here
Are they just a noise soon lost in air?
Or is there more? Is there more? You lift your hands up higher reaching to the sky
Is there a reason, can, can you tell me why?
Or is there more? Is there more? So let me ask you, can you feel the music all around you?
The flashing lights, but love can fill your mind
But can't you feel the sounds of love flow through you?
We're praising Him tonight And can't you feel the music all around you?
The flashing lights, but love can fill your mind
But can't you feel the sounds of love flow through you?
We're praising Him tonight Some say that it's, it's not right
For us to praise on this type of night
Tonight there's more, there's more Songs are not just more than empty words
Songs of love sent to our God above
Tonight there's more, there's more So let me ask you, can you feel the music all around you?
The flashing lights, but love can fill your mind
And can't you feel the sounds of love flow through you?
We're praising Him tonight And can't you feel the music all around you?
The flashing lights, but love can fill your mind
And can't you feel the sounds of love flow through you?
We're praising Him tonight Can you feel the music all around you?
The flashing lights, but love can fill your mind
But can't you feel the sounds of love flow through you?
We're praising Him tonight And can't you feel the music all around you?
The flashing lights, but love can fill your mind
But can't you feel the sounds of love flow through you?
We're praising Him tonight
