Forces of Freedom

Cage

Every thing changed. This glorious land shall not be the same
Oh those things that we saw on that on one fateful day
we stand ready to fight. Liberty guides us we follow her light
and we will carry on the American way. And the drums of the
brave begin playing their song. The flag is being waved showing
freedom lives on god bless the Forces of Freedom and those who
protect God bless the US of A. From the skies we will come then
we'll take to the ground and do what must be done. To avenge
those we're lost they did not die in vein. Shining stars in the sky
well there's one for each hero who gave up their lives. Their
memories will survive heavy hearts feel the pain. And the drums of
the brave begin playing their song. The flag is being raised showing
Freedom lives on god bless the forces of freedom and those who
protect god bless the U S of A. God bless the souls of our fallen
in peace may they rest. We will never forget that September day
that September day god bless the U S of A.
