

# Fidelity

Todd Rundgren

I've been hurt  
I've never been so hurt  
Yes, and only you know why  
But I would be far more hurt if we had to say goodbye  
When I think that it's all or nothing  
I tell myself True love does not demand fidelity  
If there's one sacred place always in your heart for me  
Time has come, I knew the time would come  
When someone would want to be more than friends  
But we had a love so sweet  
I thought the dream would never end  
If my love could not withstand this jealousy  
I'd remember the day I threw away our eternity  
Has no plan, things will happen, we don't understand  
One day the glove is on the other hand  
And when you think that it's all or nothing  
Just tell yourself If our love could not withstand this jealousy  
We'd remember the day we threw away our eternity  
If it's true love, it does not demand fidelity  
Oh, it hurt me so bad  
But I can't help but love you for eternity  
I know we got a true love
