

# God Bless The Day

## Golden Earring

In the morning dawn  
When it's not all clear  
All you can hear is the silence  
Of a fairy-like noise far away  
In the morning dawn  
When it's not all clean  
All you have seen is the burying  
Of a fairy-like bright early day  
The Lord will bless this day  
And our food  
And the weapons of the enemy

In the neighborhood  
The Lord will bless the victory  
Of every fool with a gun  
Thinkin' he can change the rule  
God bless the day  
God bless the day  
God bless the day  
God bless the day  
Like one says  
He will bless  
And we will wait  
For what he'll create
