

# Come As Melody

## Trey Anastasio

This time when melody  
Calls me up to say hello  
These kinds of fantasies  
Long enough that laid belowAnd try to see  
Whats wrong with me  
Or never knowCome as melody  
    Come as energy  
    Come as memories  
Come at allIn time the memories  
    Fall away and stay below  
    In shadow energy  
Long enough today to goAnd try to see  
Whats wrong with me  
Or never knowCome as melody  
    Come as energy  
    Come as fantasies  
Come as memoriesAnd now will lead  
    To all you prayed for  
    Why to say whats come  
    Whats made to last  
To cry for livingYoull see whats one  
    To be whats done  
    What will be last  
    To see and why  
    To make one, one, one, one  
One, one, one, oneCome as melody  
    Come as melody  
    Come as melody  
Come as melodyCome as melody  
    Come as melody  
    Come as melody  
Come as melodyOne, one will be love now  
    Im free, undone  
    Unheard from love  
Will beg, will seeWill cry for will  
    Will try to be  
    To all of one  
Through all to loveCome as melody  
    Come as melody

Come as melody  
Come as melody  
Come as melody  
Come as melody  
Come as melody  
Come as melody  
Come as melody  
Come as melody
