

# She Don't Care

## Descendents

I get up every morning  
And make a coffee like I've always done  
She won't look in my eyes  
What has our love become? Try talking about it (We talked about it)  
We talk around it  
And never get nowhere  
I gave her everything I got  
And she don't care She don't care...  
No she don't! Ten years before  
I recognized the sacrifice she made to be with me  
Said 'when you want to you can leave' It's easy to make promises  
While you're dumb in love  
Watch them all evaporate  
Because she's had enough Try talking about it (We talked about it)  
Talk around it  
And never get nowhere  
I gave her everything I got... She made her mind  
I lost my wife, my lover, my best friend  
And I don't think I'll ever be right again It's easy to make promises  
While you're dumb in love  
Watch them all evaporate  
Because she's had enough Try talking about it (We talked about it)  
Talk around it  
And never get nowhere  
And I'm only a friend you know...  
She don't care She don't care  
She don't care
