

Moving on

[Eric Arjes](#)

the sky's looking up now
past the shadows of our hometown
nothing that I could forget about
I'm just moving on
moving on
my blood's getting warmer here
with every step that disappears
and I cant replace every tear
but I can move on

no turning back
got to remember that the moment is right
no giving in
gotta hold on to this feeling inside
keep moving on
keep moving on
moving on to something new

the light's getting brighter still
like my dreams are climbing uphill
turn the corner, turn the page until
I'm moving on

no turning back
got to remember that the moment is right
no giving in
gotta hold on to this feeling inside
keep moving on
keep moving on
moving on
moving on to something new

moving on
gotta believe
moving on
gotta make peace
moving on
just gotta keep moving
on and on and on and on

no turning back
gotta remember that the moment is right
no giving in
gotta hold on to this feeling inside
no turning back
gotta remember that the moment is right
no giving in
cuz I've never ever been more alive
oh
keep moving on
keep moving on
keep moving on
moving on to something new
keep moving on
keep moving on
keep moving on
moving on to something new
