Spiders

Space

In twenty years from now
I want to be nowhere
I live life day by day
Just sitting in the same chairIf it wasn't for you I'd have taken root
You gave me a brand new meaning
An extra season
And all of this from a girl who'sScared of the spiders
And she's scared of the dark
She's scared of the bogeymen in the park
But if anybody comes near me
I know she'll cut their balls offThey wrote a book about her
It's taken the place of the Holy Bible
I'd send her to the stars
But the Universe couldn't handle that egoIf it wasn't for you I'd have taken root
You gave me a brand new meaning
An extra season
And all of this from a girl who'sScared of the spiders
And she's scared of the dark
She's scared of the bogeymen in the park
But if anybody comes near me
I know she'll cut their balls offScared of the spiders
And she's scared of the dark
She's scared of the bogeymen in the park
But if anybody comes near me
I know she'll cut theirIf anybody comes near me
I know she'll cut their
If anybody comes near me
I know she'll cut their balls off
