california sky

[unknown]

Sometimes I wish that I could stop the clock from turning
And spend the weekend lost inside your eyes
Somehow I wish that I could hold the roses burning
'Til I can make you mine
From the first time I saw you at the coffee shop on Melrose
They were playing Hey Jude and we both sang along
Could have talked forever had a thousand cups of coffee
I hated that my flight was taking off
And if I had the time
And I could live a different life
And if this plane will fly over the California sky
I'd be with you tonight
I'd be with you tonight
I put my headphones on and went right to the Beatles
Looked out the windows saw your face amongst the stars
Ten hours 'til London and I wonder if you've been here
And if you know you caught my heart
From the first time I saw you at that coffee shop on Melrose

With your skinny black jeans and your long blond hair
Could have talk forever had a thousand cups of coffee
Instead of being ten thousand feet above nowhere
And if I had the time
And I could live a different life
And if this plane will fly over the California sky
I'd be with you tonight
I'd be with you tonight
I wanna take you up on Malibu
I wanna hold your hand in Griffith Park
I wanna dance with you in Hollywood
And kiss your lips under the stars
And if I had the time
And I could live a different life
And if this plane will fly over the California sky
I'd be with you tonight
I'd be with you tonight
I'd be with you tonight
I'd be with you tonight
I'd be with you tonight.
