Automatic

The Androids

I push so hard, they hardly push back
Instinct has led me to a man trap
Divorce my conscience to be undone
Throw down my ladder so you can get upIt's automatic
I just can't help itI push so hard, you push me back
I push so hardPart dopey dog and one part steam train
On the back foot I see that look again
I push so hard, they hardly push back
You say, alrightIt's automatic
I just can't help itI tell you what to do
I'll do the work for you
I'll tell you what to doIt's automatic
I just can't help itIt's automatic, yeah, yeah, yeah
I just can't help this place I'm in
