

Automatic

The Androids

I push so hard, they hardly push back
Instinct has led me to a man trap
Divorce my conscience to be undone
Throw down my ladder so you can get up It's automatic
I just can't help it I push so hard, you push me back
I push so hard Part dopey dog and one part steam train
On the back foot I see that look again
I push so hard, they hardly push back
You say, alright It's automatic
I just can't help it I tell you what to do
I'll do the work for you
I'll tell you what to do It's automatic
I just can't help it It's automatic, yeah, yeah, yeah
I just can't help this place I'm in
