

Don't Call Me Babe

Shampoo

Your little girl
Is not your little girl no more
On your way out
Don't you forget to close the door I feel a change is coming
I'm getting out, I'm running
This time I've got to win
You can call me anything but Don't call me
Don't call me babe
Don't call me
Don't call me babe I don't know who to trust
Was left for dead before
I don't believe in you
Or anything no more I feel a change is coming
I'm getting out, I'm running
This time I've got to win
You can call me anything but Don't call me
Don't call me babe
Don't call me
Don't call me babe Don't like your style
You're off the case
Don't like your smile
Don't like you face Don't call me
Don't call me babe Your little girl
Is not your little girl no more
On your way out
Don't you forget to close the door I feel a change is coming
I'm getting out, I'm running
This time I've got to win
You can call me anything but Don't call me
Don't call me babe
Don't call me
Don't call me babe Don't call me
Don't call me
Don't call me
Don't call me Don't call me
Don't call me babe
