

# Sip Of Wine

## Barclay James Harvest

On the road and I'm feeling low  
Got a ticket for my way back home  
I start to feel like a rolling stone  
Without company Down in the bar talking to the trees  
I found a lady hanging on my sleeve  
I said, "I thank you but I have to leave"  
She said, "Stay with me, I need company" Take a sip of my wine  
It's gonna make you feel fine  
Come tomorrow, leave it all behind I didn't see a warning sign  
I held her breath and she was holding mine  
I think I'll be here for a long, long time  
If you stay with me, got to be Take a sip of my wine  
It's gonna make you feel fine  
Come tomorrow, leave it all behind Take a sip of my wine  
It's gonna make you feel fine  
Come tomorrow, leave it all behind
