Lose It (feat. Vic Mensa)

Flume

Put away your inhibitions
Let the beast in you just get loose
We all young, wild and different
We could all get lit from a lil gooseI know you're terrified by what the future lies
But there's no compromising, it's my way or the highway
We all just played the lust, hard building breaking trust
She gon' get wowed when we come out
Like she gon' get loud when the weed come out this instant
Give a fuck what your friends think
Tell they boozy ass go wait in line
With them lame niggas talking real rap
Tell 'em break your neck go and bust a rhymeBlow one down, pass it around
Fuck with me now, we're running wild
Nobody game, we own the town
Never come down, I'll never come downLose it
I might lose it [x2]Everybody got guilty pleasures
Mine just turned to catch me cases
Handcuffs, police inspections
Lawyers, judges, allegationsTurn on your favorite station
You hear the same old song
I feel like Nagasaki, dog
I'm 'bout to drop the bombBlow one down, pass it around
Fuck with me now, we're running wild
Nobody game, we own the town
Never come down, I'll never come down [x2]Lose it
I might lose it
I might lose it
I might lose it [x2]Lose it
I might lose it [x2]
