# Seduction

## Usher

Sexy women, women
Sensious, sexy, voluptuous
It don't matter baby
You got it, you got it
Seduce me baby, seduce meJust to get my attention
Send a note and a drink
When we made our connection
She just knodded and winkedOn this note it said
'It's 'bout time we get together
Let's dance now, hook up later
We can do whatever'She had confidence
It's all part of the game
'Cause to her who I'm with
Don't really mean a thing
She knew what I liked
And now I'm thirsty for more, babySeduction, since you were sexy erotic
How you workin' your body
You gon' make me do it, do it to yaSeduction, you thought out your best
To get me outta control, baby
More I creep around with you
Make me wanna get down with ya
Down with ya, down with yaBaby you got my attention
What you gon' do with it?
Baby turn around, stick it out
I wanna see itShe'll make the first move
Smooth, intoxicatin'
She crazy
I'm fightin' not to lose controlI'm feeling a little tension
Don't know whose watchin'
Gettin' big, in too deep
And I can't stop itYou're making it, hard for me to stay
Hard to walk away
Hard don't wanna play no more
Hard, oh I can't take it babySeduction, you got me babe
Since you were sexy, erotic
How you workin' your body
You gon' make me do it, do it to yaSeduction, you thought out your best
To get me outta control, baby
More I creep around with you

Make me wanna get down with ya
Down with ya, down with yaSeduction, since you were sexy, erotic
How you workin' your body
You gon' make me do it, do it to yaSeduction, you thought out your best
To get me outta control, baby
More I creep around with you
Make me wanna get down with ya
Down with ya, down with yaBaby whatever you want, girl you got it
Long as you're satisfied
'Cause it's so hard to resist, ohh your body
Got me improvisedGot vivid thoughts in my mind
The positions that I'm gonna try
But is it worth all the hurt, should I risk it just for one night?
Once I give it, she's gonna win, either way I loseI'm tryin' to chill but she got me on the spot
She's so cocky and the way that she watchin' me
Got me feelin' hotShorty know that I gotta girl
And I really can't break the rules
Plus Paparazzi snappin' shots
And it's hard for me to shake these foolsSo do I, one, put it on her, work my way to the front?
Do I, two, dig my part and sure don't try to pull no stunts?
Or maybe three, yeah chase the cat
'Cause she's sending me on a hunt
Naw, punk that, I ain't no punk
I'm gonna give shorty what she wantSeduction, way to go
Since you were sexy, erotic
How you workin' your body
You gon' make me do it, do it to yaSeduction, you thought out your best
To get me outta control, baby
More I creep around with you
Make me wanna get down with ya
Down with ya, down with ya
