## GIVERS

Please come back  
Home to Bermuda  
Please come back  
Home to Bermuda  
Back at your town, your carpet choice  
Fat and feeling there's no reason to avoid  
Keep proving everything  
Till you prove the stuff you got  
Won't complain at all  
Push too far  
Didn't wanna follow it up  
And once recites  
Can we hear you now  
Cuz in the night singing that  
I will sing what's writing on the wing  
Cuz my vision's sharp through love and pain  
Racing up in you love, whisper an idea  
Yeah, these visions start with a common thread coming through  
Great watch we wave as we say goodbye  
Forget what this is about  
If I force them to find it  
You know what's up with this  
And no more room to contest  
[?] illusion  
Even your circles are staring at circles  
And we must recite this, hear that  
Slow it down for you  
And it all came true  
In the course for you  
Oh, in the dime  
I, I, I, I, I, I, I  
Cuz my vision's sharp through love and pain  
Racing up in you love, whisper an idea  
Yeah, these visions start with a common thread coming through  
Watch we wave as we say goodbye
