# Children

## Delta Spirit

Children shut your eyes
We'll tell you what to see
This world is burning down
And you're the ones to leadNow look into their hearts
All those who hold the lead
Don't listen to their lies
They only want one thing
Well, I only want one thingThey'll rob you from the truth
And they'll steal you from our house
The blind leading the blind
Don't hang around with their kind'Cause I love the life I lead
And I know my enemies
Well, if God is on our side
Well, that's all you really need
Well, that's all we really need
Well, that's all I really needFollow down the road
I was led before you were born
No it's not your choice
To pick your own fightWhen you sitting second class
And as long as you're in control
Speaking when you're asked
You make your own stand
And you take your own stand
Well, I'll make my own stand
And I take my own stand
