

# Won't Be Around No More

Avi Buffalo

The great escape we never got to make  
Candlelight days, driving home late  
From Pasadena  
Asked if I was ready to say I loved you then,  
Said I suppose I am, I think I did but knew it wasn't right, no And I won't be around no more  
I won't be around no more  
I won't be around no more  
I won't be around no more  
A ghost with taste  
Stealing nothing more than a piece of me before  
left over pain and score  
So afraid I stayed up all night  
made sure I was high, kissed you in the morning  
right beside her. And I won't be around no more  
I won't be around no more  
I won't be around no more  
And I won't be around no more  
I won't be around no more  
I won't be around no more  
Asked if I was ready to say I loved you then  
Said I suppose I am, I think I did but knew it wasn't right, no
