

# On My Sonar

## The Stereo

i feel so stupid after all  
its all so strange what could be wrong?  
you're gone but still you're on my sonar  
there has to be some huge mistake  
what girl in her right mind would take  
this boy for granted, you're on my sonar  
what could be so perfect won't  
and you could love me but you don't  
i'm separated from you now  
i can't believe this tell me how  
this could go so wrong, you're on my sonar
