Christ Is Calling

Fire Engine Red

Well, my car won't start and my heart don't work
Brain don't work and I can't stand the pain
Christ is calling, so just admit that you have fallenHe's calls you out of the world
He's given swine fine pearls
Christ is callingWell, my car won't start and my heart don't work
Brain don't work and I can't stand the pain
Christ is calling, so just admit that you have fallen
Christ is callingCalls you out of the world
He's given swine fine pearls
Christ is callingNo, no, noHard to admit that you have fallen
So just admit that you have fallen
Christ is callingCalls you out of the world
He's given swine fine pearls
Christ is callingWell, my car won't start and my heart don't work
Brain don't work and I can't stand the pain
Christ is calling, well just admit that you have fallen
Christ is callingHe calls you out of the world
He's given swine fine pearls
Christ is callingNo, no, noHard to admit that you have fallen
Well, just admit that you have fallen
Christ is callingCalls you out of the world
He's given swine fine pearls
Christ is calling
Here we goNo, no, noHard to admit that you have fallen
So just admit that you have fallen
Christ is callingCalls you out of the world
He's given swine fine pearls
Christ is calling
One, two, three
