Understand Me Still

Memphis Bleek

Yeah you know, just vibe with me one time
Understand my life come on
And y'all don't understand me still, I never enjoyed success
But my family will and I'm alright with that
Hey yo I eat good, smoke good
You see I push the latest whips with the hottest bitch
Take trips to the coast of Bermudas
But dog I'm from flush Ave where I pop toast for aruba
And I am proud of myself
'Cause me true dog, never acted, never lie to myself
I've been in Hollywood and back, guess what I'm still
I'm sayin' number from the blue tops days, I'm still him
You dudes think I'm touring like I'm part of you and out
But is just about the performance, get the money we out
Try to chill, I try to take the wife they eat
But most girl, disrespectful when they tryin' to speak, as if
They don't understand, let me live, ma
I'm with my fam, let me live
And I try to be nice about being disrespectful
One gets respects, when you show one respect too
But y'all don't understand me still, I never enjoyed success
But my family will and I'm alright with that
But y'all don't understand me still, I never enjoyed success
But my family will and I'm alright with that
Hey yo I take you back home every chance I get
Because I've been through every ghetto, but home I can't forget
Wish I could take 'em all, on this ride with me
But it wont be real, if you asked it ain't be reality
I only fucked with a few and if you real you know
Soon you go, if not, you don't, yeah
We still family right, that's what you leave me to believe
But y'all don't understand my life
I took Dre down to south beach
Just to show him what a few ones to do
When you amongst your crew, we living
I never pictured I could ever loose him
But I found myself with the thoughts I could loose him
I put the stash up, I'm just trying to save his life
Just moved moms, had to moved her twice, down to Miami

I thank God everyday of my life, I could provide for my family
But y'all don't understand me still, I never enjoyed success
But my family will and I'm alright with that
But y'all don't understand me still, I never enjoyed success
But my family will and I'm alright with that
Hey yo, my brother survive, now everybody's doing fine
I kept my moms away, to let her enjoy life
I wish I could do the same, but I can't, there's work to do
Rent due, there's more work to do
I copped bikes let my niggaz ride them
I copped coupes, let my niggaz drive them
I'm proud to see my niggaz wilding, 'cause I remember them days
They still vivid of me, huggin' the block, young soul committed
When I wrote rhymes daily
To get my flow up, pray one day the whole world could hear me
I love it when the crowd recited every word of it
When they bounce, let me know that they all a part of it
That two things make me proud of my life
I thought I had it all, but the best gift was life
The third gem I'ma brand new father
Of a healthy baby boy and it's making me work harder
But y'all don't understand me still, I never enjoyed success
But my family will and I'm alright with that
But y'all don't understand me still, I never enjoyed success
But my family will and I'm alright with that
Y'all don't know, y'all don't know
And I'm alright with that, yes I am
All this cold nights risking my life, but it's all good
Yeah I'm misunderstood, y'all don't know
