

# Blind date

## Drengene Fra Angora

So, you wanna go out with me  
Watch me get on my knees and bleed?  
I stole this scrapbook from you  
Doesn't matter 'cause you stole it too  
Sugarcoated kisses from my lips  
Gives the excitement of a stolen bliss  
To create, to love and fight  
To create, to love and fight  
To create, to love and fight  
We won't sleep at all tonight  
So, you wanna watch me scream  
Dance with me and watch me bleed?  
Steal the sound and love it too  
Then baby, I'll howl for you  
Confused and exhausted with a healthy fix  
Let's drink some potion, get it over with  
Shake it around, shake it around, shake it around  
Move across town, bring their idols down  
Shake it around, shake it around, shake it around  
Move across town, kick their idols down  
They're screaming 'bout the rock 'n' roll  
I would say that it's getting old  
Belongs to the museums  
It's rotten soul been sold  
Explosive and crude  
Out of line and out of tune  
Somehow knowing that  
We'll get the message through  
Hang on as the rebirth of cool takes place  
You'll know the time, we'll set the pace  
So, you wanna go out with me  
Watch me get on my knees and bleed?  
I stole this scrapbook from you  
Doesn't matter 'cause you stole it too  
Sugarcoated kisses from my lips  
Gives the excitement of a stolen bliss  
To create, to love and fight  
We won't sleep at all tonight  
Shake it around, shake it around, shake it around  
Move across town, bring their idols down  
Shake it around, shake it around, shake it around  
Move across town, kill their idols  
Shake it around, shake it around, shake it around  
Move across town, brake their idols down  
Shake it around, shake it around, shake it around  
Move across town, kick their idols down
