

Dirtbag

Brad Sucks

It's a little bit hard to understand
But i only wanna be a modern man
On the wire, it couldn't be nicer
Just thinking 'bout the one that got away
Nobody wanna give my heart away
You could make your mind up, it could take your time up

It seems you've mistaken me for someone who cares
I'm just a dirtbag under the weather and overrated
Seems you've mistaken me for someone who cares
I'm just a dirtbag under the weather and overrated

Living underground taking it to the scene
Making money not knowing what it means
I'm a liar, I've set shit on fire
Take your time talking down to all your friends
Living with the little dogs and elephants
It's hard to find it, but I don't mind it

It seems you've mistaken me for someone who cares
I'm just a dirtbag under the weather and overrated
Seems you've mistaken me for someone who cares
I'm just a dirtbag under the weather and overrated

Hitching a ride with the bugs and the flies and I'm on my own
Hitching a ride with the bugs and the flies and I'm on my own
Hitching a ride with the bugs and the flies and I'm on my own
Hitching a ride with the bugs and the flies and I'm on my own
