

# Never a Woman

## White Sea

The city is a killer  
The city is killing me  
And I'm never a woman  
Never a woman

The city is a killer  
The city is killing me  
And I'm never a woman  
Never a woman

Dodging the light to hide my face  
All of my life there's no time for love  
You may be a way there  
But you (?) about me  
I let you spill your secrets  
But I don't have to keep them stashed  
(?)

Then what we just used to give them  
The city is a killer  
The city is killing me  
And I'm never a woman  
Never a woman  
The city is a killer  
The city is killing me  
And I'm never a woman  
Never a woman

A short of men at a taxi bar  
I could've been moved from what you looking for  
But never lovers  
I'm hoping never lovers  
Maybe I'm no good for anybody  
Maybe I'm just better all alone  
Everybody understands until they don't  
Catch ya (?)  
(?),(?),(?)

The city is a killer  
The city is killing me  
And I'm never a woman  
Never a woman  
The city is a killer  
The city is killing me

And I'm never a woman

Neever a woman

Woman

The city is a killer!

The city is killing me and I'm never a woman

The city is killing me and I'm never a woman,

Oh, oh, oh, oh, oooh
