# Capture the Flag

## Sodom

They took the oath of allegiance
Responsible and proud
Sold their soul for native love
In war to stand their groundDon't bury the hatchet
Get on with your fight
Snipe down the enemies
Put them out of action
Don't look back
The promised words we never forgetCapture the flag
Capture the flagDeparture to conquest the Hamburger Hill
At the risk of our life
Embitters resistance, deadly traps
Rapid fire - Got no chance to diveDon't bury the hatchet
Get on with your fight
Snipe down the enemies
Put them out of action
Don't look back
The promised words we never forgetCapture the flag
Capture the flagHollow bangs and cries of pain
That filled the air with blood
Fleeing in the minefield reign
Encircled by the flank attacks
A game like Russian roulette
Who will survive?
The mine barrier in front of us
Overpowered in running fightArmour-piercing bullets
Slaughtered one by one
Two find a way to hide
The tables are turned
By hopeless defeats
Got the power, got the mightDon't bury the hatchet
Get on with your fight
Snipe down the enemies
Put them out of action
Don't look back
The promised words we never forgetCapture the flag
Capture the flagNow twenty years later
Sitting by the beer
Remembrance comes awake

Talk about friends
That never came back
Fallen by the war's disgraceDon't bury the hatchet
Get on with your fight
Snipe down the enemies
Put them out of action
Don't look back
The promised words we never forgetCapture the flag
Capture the flag
Capture the flag
Capture the flag
