

# Everything Is Everything

## Beats and Styles

Things are gonna change  
And not for better  
Don't know what it means to me  
But it's hopeless, hopeless.  
Gotta get you home  
Could be with anyone  
I think of what I've done  
Oh, you know it all.  
Everything, is everything  
The more I talk about it, the less I do control.  
Everything, means everything  
Can't understand a word, half of the stuff I'm sayin.  
The things I do possess  
Sometimes they own me too  
What they gonna do to me  
I think it's hopeless, hopeless.  
What I can't explain  
I'm sure you get it well  
Ah, since I always wanted  
  
I always wanted you.  
Everything, is everything  
The more I talk about it, the less I do control.  
Everything, means everything  
Can't understand a word, half of the stuff I'm sayin.  
Riding low, Riding low, Riding faster.  
This is what I want; look at what it did to me.  
Riding low, Riding low, Riding faster.  
This is what you want; this is what you get instead.  
Riding low, Riding low, Riding faster.  
This is what you want, I always wanted you.  
Everything, is everything  
The more I talk about it, the less I do control.  
Everything, means everything  
Can't understand a word, Half of the stuff I'm sayin.  
Riding low, Riding low, Riding faster.  
The more I talk about it, the less I do control.  
Riding low, Riding low, Riding faster.  
Can't understand a word, half of the stuff I'm sayin.
