

I Dont Wanna

Aaliyah

Yeah, mmm hmm
Whoa, ooh yeah I don't wanna be, be without you, be without you
I don't wanna live, live without you, live without you
I don't wanna go, go without you, go without you
I don't wanna be alone When we hooked up we sat down
Made an agreement, we vowed that
That we'd always be together through whatever
We said that no one would ever get between us Said that love would never leave us
That was a while ago but now lately it feels like
I mean, I feel like all we do is fight
Every single night Can't make it tight, can't get it right
I just wanna go back, take it way back
All the way back, can we start again
Do it over, can we straighten it out
Can we work it out 'cause I don't wanna be, be without you, be without you
I don't wanna live, live without you, live without you
I don't wanna go, go without you, go without you
I don't wanna be alone I don't wanna be, be without you, be without you
I don't wanna live, live without you, live without you
I don't wanna go, go without you, go without you
I don't wanna be alone I can't sleep without you, think without you
Eat without you, speak without you, be without you
I can't even breathe without you
I can't do without you, deal without you, spend without you My whole world is upside down
Don't wanna go out 'cause I can't ride without you
Feelin' like I'm gonna die without you, what is a girl supposed to do?
When I spend my last dime bein' your line
I don't wanna be without you I don't wanna be, be without you, be without you
I don't wanna live, live without you, live without you
I don't wanna go, go without you, go without you
I don't wanna be alone I don't wanna be, be without you, be without you
I don't wanna live, live without you, live without you
I don't wanna go, go without you, go without you
I don't wanna be alone How can this be that it's not workin' out
(That it's not workin' out)
We vowed to be always together, babe
It's hurting me that we don't talk no more
It's not supposed to be this way, where did we go wrong
We both made mistakes but gotta carry on I don't wanna be, be without you, be without you

I don't wanna live, live without you, live without you
I don't wanna go, go without you, go without you
I don't wanna be alone Don't wanna live, no, no
