Don't Come Back Knockin'

Buddy Holly

Well, I found you're a rover

And it's made me blue

Like a talent scout

You want some love that's newDon't come back knockin'

At my heart's closed door

For I won't be home

Don't call an' knock no moreWell, when you went away

And left me all alone

While you played around

I waited at homeDon't come back knockin'

At my heart's closed door

For I won't be home

Don't call an' knock no moreYou had all my heart

It was your very own

You weren't satisfied

Now, I'll go on aloneDon't come back knockin'

At my heart's closed door

For I won't be home

Don't call an' knock no moreOh, let's really knock it this time boysWell, pity those with hearts

So empty and cold

To never know true love

A treasure to holdDon't come back knockin'

At my heart's closed door

For I won't be home

Don't call an' knock no more
