

Last

Tamaryn

Dreams of your new life
No tears or troubles
Taking me over
Dancing to the tune I like
It turns me around
Stuck in a locked groove
Saying "It's over now"
If you say that this will last
and we play like this will last
I'll be waiting in your past
Hang up before you leave
Chase another line
Won't save my troubles
They're taking me nowhere
Laughing any time you lie
I sense you know when
to fuck with a moment
Saying "It's over now"
If you say that this will last
and we play like this will last
I'll be waiting in your past
Hang up before you leave
