A Fire In the Rain

Doug Supernaw

I've gone from everything to nothin'
You've gone from here to far away
I used to wake up in the morning
Thinkin' everything was possible, now there's just no wayHere I am again starting over
Heartache to heartache
Lover to lover
Jukebox to jukeboxLonely eyes to little games
Tryin' to start a fire in the rain
Tryin' to start a fire in the rainIf you were here we'd still be nowhere
If I were there you'd still be gone
I can't seem to learn the lesson
How to come full circle, how to just move onHere I am again, starting over
Heartache to heartache
Lover to lover
Jukebox to jukeboxLonely eyes to little games
Tryin' to start a fire in the rain
Tryin' to start a fire in the rain
Here I am again, starting over
