

Cut It Free (feat. Adam Tell)

Rhodz

[intro]

Past mistakes
Dragged under the waste
Caught in a bubble
That can't escape
Comes and goes
Peeking through the holes
Feel it boiling up you hope

Shake the hand and say your last farewell
Leave the winners' stand and lose yourself
No more begging for the bench to call you clean
Cut it free

[instrumental]

A future hell
And a system that fell
The sole creator
Has gone for help
Rebuilding trust
Make peace and adjust
But it might not be enough...

Shake the hand and say your last farewell
Leave the winners' stand and lose yourself
No more begging for the bench to call you clean
Cut it free

Shake the hand and say... Farewell

[instrumental/outtro]
