Nightshade

Blood Orchid

I've been sipping all night
I'm about to sip some more
Howling at the moonlight
I just wanna take you home

Can't say that I won't bite
So grab your pistol from the drawer
Cus once it turns to midnight
You gon' see how all things form

It's time to break the silence
Just let nature take its course
Can you hear the sirens?
Maybe you should lock your doors

Temperature is rising
This warning shouldn't be ignored
Cus once it turns to midnight
You gon' see how all things form
