

# A Better Life

Grace VanderWaal

Ooh ooh ooh Your eyes  
They speak to me  
But I don't know what they are saying  
But I think I know what you are thinking So close your eyes  
And create yourself a better life  
Let the wind blow through your hair, oh  
Let the music take you there  
And make a better life, better life, hm hm hm hm  
You found a lighter  
On the street  
And suddenly everything just seems so happy, hm hm  
My honey, it's all temporary Just close your eyes  
And create yourself a better life  
Let the wind blow through you hair  
Let the music take you there  
And make a better life, a better life, life  
So close your eyes  
And create yourself a better life  
Let to wind blow through you hair  
Let the music take you there  
And make a better life A better life  
Maybe this time  
Things will turn out right
