

# Someone Else's Star

Bryan White

Alone again tonight  
Without someone to love  
The stars are shining bright  
So one more wish goes up Oh, I wish I may  
And I wish with all my might  
For the love I'm dreaming of  
And missing in my life You'd think that I could find  
A true love of my own  
It happens all the time  
To people that I know Their wishes all come true  
So I've got to believe  
There's still someone out there who  
Is meant for only me I guess I must be wishing on  
Someone else's star  
It seems like someone else keeps getting  
What I'm wishing for Why can't I be as lucky  
As those other people are  
I guess I must be wishing  
On someone else's star I sit here in the dark  
And stare up at the sky  
But I can't give my heart  
One good reason why Everywhere I look  
It's lovers that I see  
It seems like everyone's in love  
With everyone but me I guess I must be wishing on  
Someone else's star  
It seems like someone else keeps getting  
What I'm wishing for Why can't I be as lucky  
As those other people are  
Oh, I guess I must be wishing  
On someone else's star Why can't I be as lucky  
As those other people are  
Oh, I guess I must be wishing  
On someone else's star
