

# Radio

## Radical Something

I'm drivin' down the coast line  
Ridin' with my windows down  
I can't complain cause life is good  
But man, I wish I was on the radio  
I wish I was on the radio  
I wish I was on the radio  
I said I am leaning down the window  
Watching the ocean meet the sky and mix the colors of blue  
An rolling down the PCH about to lull myself to sleep cause the road is so smooth  
We're Hoping one day you will be hearing us  
Top spot on your favorite show  
Turn the volume up so we can dance  
When our song is on the radio  
Chorus  
I am driving down the coast line  
Riding with my windows down  
I can't complain cause life is good  
But man, I wish I was on the radio  
I wish I was on the radio x2  
Welcome to summer time  
Go to work another time  
We blast the music out as we cruise  
And thinking damn man  
Wouldn't it be sweet if the station  
Was playing our tunes  
I know that one day  
You will be hearing us  
  
Top spot on your favorite show  
Turn the volume up so we can dance  
When our song is on the radio  
Chorus  
I'm drivin' down the coast line  
Ridinn' with my windows down  
I can't complain cause life is good  
But when I wish I was on the radio  
I wish I was on the radio  
I wish I was on the radio  
He's drivin' and we're never lookin' back

And we'll listen to the radio  
Dun dun dun nuh duh dun dun nuh  
Dun dun duh nuh dun nuh

Chorus

I'm driving down the coast line  
Ridin' with my windows down  
I can't complain cause life is good  
But man, I wish I was on the radio  
I wish I was on the radio  
I wish i was on the radio  
You know what Loggy  
One day we are gonna be on the radio  
You feel me  
But for right now we'll just think about it  
Said I will do anything  
To be on the radio
