Stop Me

Mark Ronson Featuring Daniel Merriweather

I told you not to make me mad please
When I get mad you wouldn't like me
I turn into some kind of a monster
Go out to the bar and I do bad things
Now I'm outta control
I know
There's gon' be casualties
And when I get goin'
Let them know
You're the only who can stop me (Help, help)
You're the only who can stop me (Help, help)
You're the only who can stop me (Help, help)
When I fall I need you around me (Help, help)
You're the only who can stop me (Help, help)
Stop me (Help, help)
Stop me (Help, help)
Stop me (Help, help)
Stop me (Help, help)
Step on the floor I end up falling
I try to resist
Confusion calls me
When I get like this you wouldn't know me
Nobody moves
Won't hurt nobody
Now I'm outta control
I know
There's gon' be casualties
And when I get goin'
Let them know

You're the only who can stop me, stop me (Help, help)
You're the only who can stop me (Help, help)
You're the only who can stop me, stop me (Help, help)
When I fall I need you around me (Help, help)
You're the only who can stop me (Help, help)
Stop me (Help, help)
Stop me (Help, help)
Stop me (Help, help)
Stop me (Help, help)

Stand up I end up falling
I hear confusion calling
Can't stop once I get started
You are the only one
Now I'm outta control
I know
There's gon' be casualties
And when I get goin'
Let them know
You're the only who can stop me (Help, help)
You're the only who can stop me, stop me (Help, help)
You're the only who can stop me, stop me (Help, help)
When I fall I need you around me (Help, help)
You're the only who can stop me (Help, help)
Stop me (Help, help)
Stop me (Help, help)
Stop me (Help, help)
Stop me (Help, help)
Stop me (Help, help)
Stop me (Help, help)
Stop me (Help, help)
Stop me (Help, help)
