No More Miss Nice

Ashley Ballard

I should have known about the things I now know
I was too blind to see the things you were doing to me
How dare you ask me, why? There's no more you and I.
If you really wanna know, here we go
Number one, how come we were never having fun?
Number two, why do you always have that attitude?
Number three, can we blame it on your jealously?
Number four, no more, why can't you see?
If you think I'll take you back, you're in for a surprise
You'll never be the one for me
Second time around I know, you gotta pay the price
You got to be, you're not to be
If you think I'll let you play this game not once, but twice
There will be no more miss nice
My heart's on lock down, so don't you come around
'Cause I'll unplug the phone, I'm better off alone
Do you remember when, you can be my hottie, hottie
But that was back then, no longer your girlfriend.
Number one, how come we were never having fun?
Number two, why do you always have that attitude?
Number three, can we blame it on your jealously?
Number four, no more, why can't you see?
If you think I'll take you back, you're in for a surprise
You'll never be the one for me
Second time around I know, you gotta pay the price
You got to be, you're not to be
If you think I'll let you play this game not once, but twice
There will be no more miss nice
I should've know about the things I know now
How dare you ask my why? There's no more you and I, yeah
To be or not to be, I've thrown away the key
Baby, it's plain to see, no more miss nice
'Cause you will never be the only one for me
Baby, it's plain to see, no more miss nice
If you think I'll take you back, you're in for a surprise
You'll never be the one for me
Second time around I know, you gotta pay the price
You got to be, you're not to be
If you think I'll let you play this game not once, but twice

There will be no more miss nice
Pay the price
Once or twice
No miss nice
