

Only Girl In Town

Guy Sebastian

When I say you're beautiful
You roll your eyes as if you
Already knew
If I claim that you're acting
The fool
You say I'm the one with all
The issues...

You're sure your cute
(It's a given)
And I'm in love with you
(It's a given)
But I don't know how much more
I could take...

Do you think that if you'd told me
We were through
That I'll fall apart and not get
Over you...

And it may take a while
For me to come around
But I'll be alright coz it's
Not like you're the only girl
In town...

Do you realise, that you
Not the only star in the sky
Baby, I...I'm not tryin to say
That I want someone else in
This milky way...

Am sure you're fine
(It's a given)
And I'm glad you're mine
(It's a given)
But I don't know how much
More I could take...

Do you think that if you'd told me

We were through
That I'll fall apart and not get
Over you...

And it may take a while
For me to come around
But I'll be alright coz it's
Not like your the only girl
In town...

If i treat you like a queen, baby it
Don't mean
You've got the upper hand
Oh...

I'm sure your fine (It's a given)
And I'm glad your mine (It's a given)
But I don't know how much more I can
Take...yeah!

Yeah, hey, yeah, yeah...

Oooh, oohh, hoo...

Honestly babe, do you...

Do you think that if you'd told me
We were through
That I'll fall apart and not get
Over you...

And it may take a while
For me to come around
But I'll be alright coz it's
Not like your the only girl
In town...
