

Poor Man

Old Crow Medicine Show

Bare, naked and bare is how I came
And I'll be leaving just the same
So why be afraid
Yeah I'm a poor man, walking down the road
The straight and narrow is leading me to gold
Space, the second floor of outer space
Where all infinity awaits
I'm on my way
To a better place I'm a poor man, walking down the road
The straight and narrow is leading me to gold
So I'm a rich man, walking down the road
The straight and narrow is leading me to You gave to me, life everlasting
All I can see is life everlasting
You gave to me, life everlasting
All I can see is life everlasting, life everlasting I'm a poor man, walking down the road
The straight and narrow is leading me to gold You gave to me, life everlasting
All I can see is life everlasting
You gave to me, life everlasting
All I can see is life everlasting, life, la la life
Well you gave me life
Oh, life everlasting, life everlasting
