

Drugs & Candy

All Time Low

I can't take another hollow-point conversation
It's getting harder to fake
The sound of you, an outlasting vibration
There's something I can't shake The sweetness of you on my tongue
I breathed you in, you filled my lungs
A bitter taste, surrender waste
Another weakness You and me are like drugs and candy (drugs and candy)
Take one down for the young and easy (young and easy)
You've got me out of my head
I fill this space in your bed
High on the beat of a breakdown
'Cause you and me are like drugs and candy (drugs and candy)
And I don't wanna give it up You caught me in a moment of redemption
There's nothing to explain
You had me on the edge of indiscretion
You said you feel the same The sweetness of you on my tongue
I breathed you in, you filled my lungs
A bitter taste, surrender waste
Another weakness You and me are like drugs and candy (drugs and candy)
Take one down for the young and easy (young and easy)
You've got me out of my head
I fill this space in your bed
High on the beat of a breakdown
'Cause you and me are like drugs and candy (drugs and candy)
And I don't wanna give it up (Drugs and candy)
(Drugs and candy) The sweetness of you on my tongue
I breathed you in, you filled my lungs
A bitter taste, surrender waste
Another weakness You and me are like drugs and candy (drugs and candy)
Take one down for the young and easy (young and easy)
You've got me out of my head
I fill this space in your bed
High on the beat of a breakdown, breakdown
You and me are like drugs and candy (drugs and candy)
And I don't wanna give it up (Drugs and candy)
No I don't wanna give it up
(Drugs and candy)
You've got me out of my head
High on the beat of a breakdown

And I don't wanna give it up
(Drugs and candy)
