

# Love Me Like a Reptile

[Motörhead](#)

Knew I had to bite you, baby when I first laid eyes on you  
That moment turned me on, I can't believe it's true  
And I like to watch your body sway  
I got no choice, I'm gonna twist your tail Love me like a reptile  
Love me like a reptile  
I'm gonna sink my fangs in you Thunder lizard, stony eye, you got me hypnotized  
Hot tongue breaks in and out and I can't believe my eyes  
And your soft, white belly next to mine  
Scaly baby, see you shine Love me like a reptile  
Love me like a reptile  
You're murder in disguise  
Black mamba, murder in disguise Baby, you're a rattlesnake, you know the way I feel  
Feel you pulling up my back, you've got no love to steal  
You know I've got my eyes on you  
You're petrified, gonna stick like glue Love me like a reptile  
Love me like a reptile  
Shock you like an electric eel  
Shock you like electric eel, oh
