# Rarri Vuitton - Wavy John Chaney

## Rarri Vuitton

My name ring bells in my motherfucking town
???
???
Heard your mixtape and you ain't nothing but a clown
We can go another round shortie I don't feel sleepy
I don't fuck with you so do not holler when you see me
Other rappers greedy want the money for a C.D.
When no ones gonna buy it boy you fucking up believe me
I'm the king in this town baby ???
I need a foreign whip so I can zoom right past you
Fills me with laughter
When I hear the trash that these other rappers drop ??? Like a disaster
Enough of that talk ???
Twenty seventeen baby twenty seventeen
You can see these boys clean
But they fucking up the scene
Homie hit me on my phone
Said he loving what he seeing
Can never sign with a major deal for the bonus
Unless they tryna fund the wave and leave us all alone
Cuz I've been thinking of a plan for some years in the ???
And all the leeches wanna stop me but I wouldn't get your hopes up
???
Fuck all that broke stuff
Me and my crew been getting our dough up
Giving me advice when I could really give no fucks
I be like so what
You don't even know us
Riding in the 02
Zip it like a race car
???
???
Hoes when they see me think I came from outer space or
From another world cuz I am nothing like they are
I am mad lit
Bitch I look like Brad Pitt
Did a moneyball cuz they don't understand my tactics
If you negative about me I ain't hearing that shit
They say life is such a gamble I'm just tryna stack chips

I be on my rap shit
You can never phase us
Tryna talk down but you know the wave tough
And I will never stop until my squad caked up
A lot of rappers on but I would call it great luck
Cuz you never impress sound like everyone else
Bitch I'm in my own lane and I don't need no help
No I don't need no help...

Gang gang shit squad shit I shoot it at your temple
That's why I'm John Chaney cuz I buy the instrumentals
I never been simple I never been basic
Henny with the Sprite and they got the kid wasted
I do not say shit
I just observe shit
You don't get no shine cuz you really don't deserve it
Put in no work you should probably ???
Tell me what you think but I don't really want your two cents
Yeah my whole crew been sippin on ???
???
I only fuck with dope cats
Ask me where the hoes at
I really wouldn't know that
Cuz I am too clean
All these chicks so trash
I am on a mission to splurge and pop more tags
Flow on point like a Payton Manning post pass
