Equality

Enraged Minority

Everybody wants to feel happy, even if you think that you don't
Everyone wants to know the secret, even if you think that you don't
Everybody thinks they're different from the next man now
But we just got to realize we're just the sameAlways appear to be someone better
You know there will always appear to be someone worse
You know there'll always appear to be someone better
You know there'll always appear to be someone worse, ohEveryone has got their character
Everyone has got their personality
But the longing is still the same
So what is the answer, be easy on yourself
Make yourself feel at ease maybe that's the answerAlways appear to be someone better
You know there will always appear to be someone worse
Always appear to be someone better
You know there'll always appear to be someone worse, ohWe're just the same don't you know
We're just the same don't you know
Looking over there, he looks different, she looks different
They might even be different
But we're just the same, don't you know
We're just the same, don't you know
We're just the same
