Electric Universe (Mike Cruz Vocal Mix)

Jacinta

If you could see you through my eyes
A tender heart inside a gorgeous guy
And I wonder why we can be so blindIn my Electric Universe
Whatever you believe will be for all of us
In my Electric Universe
I know you can feel it
I know you can feel itI puzzle at the mind
Holding back the man who wants to fly
Youre not alone
Youre not alone
I want to fly highIn my Electric Universe
Whatever you believe will be for all of us
In my Electric Universe
Take me to your dreamsbaby Im gonna take youLive in my Electric Universe
Every possibility
Live in my Electric Universe
Connect me
Connect me
Connect me to the power you feel when you know youre a forceLive in my Electric Universe
Only love will flow through us
Live in my Electric Universe
I know you can feel it
I know you can feel it!
