One On One

Charley Pride

And when it's one on one she's a different kind of girl
In a lovin' kind of world where our own private day has just begun
And when it's one on one after all the daily grind
I'm the one thing on her mind when she whispers now it's one on oneShe likes to have attentions and she gets it everywhere she ever goes
She loves crowds and noisy parties goin' out at night and wearin' sexy clothes
She's a lady every minute if she's working hard or out just having fun
But through it all I know she's thinking bout the time when it gets down to one on one
And when it's one on one...
