

# New Jerusalem

## Killing Joke

Fragmented communities staring at their screens in silence

All-night surfing till the dawn

Everyone's hooked on online porn

All the people indifferent to torture

The media gives the thumbs up to the Gaza slaughter

Shallow, no attention span

No empathy for the common man

In Iraq a quarter of a million dead

Howdya feel about being misled?

The number one surveillance state

Zero regulation and there's no debate

More lies, manufactured enemies

Divided nations need a common foe

A hornet's nest created by the West

A new world order is the only goal

Look what we've become

Brainwashed Britain Look what we've become

New Jerusalem!

New Jerusalem!

Another twat in the Number 10 flat

Dancing to the tune of Goldman Sachs

Another knob got the top job

Selling out to corporations

Culture, adult entertainment, calibrated to dumb down

Big Brother said 'Strictly Come Dancing'

And everyone was dancing round and round

In Iraq a quarter of a million dead

Howdya feel about being misled?

The number one surveillance state

Zero regulation and there's no debate

More lies, manufactured enemies

Divided nations need a common foe

A hornet's nest created by the West

A new world order is the only goal

Look what we've become

Brainwashed Britain

Look what we've become New Jerusalem!

New Jerusalem!

New Jerusalem!
