Same Thing

Advisory - the following lyrics contain explicit language:

Shame, pass the ticket along
Are you outside or inside?
You are in.
So what you want to know?
That everybody wants you?
You're old enough to say
What's really on your mind
Shame, has to take it alone
Are we not for between us
We are here
So what you gonna do
When everybody loves you?
You're old enough to know
What's really on their minds
They wanted the same thing
In love with the same thing
They wanted it all
So what you gonna do
When everybody hates you?
You're old enough to have known
What was really on their minds
They wanted the same thing
In love with the same thing
In love with the same thing
They wanted the same thing
In love with the same thing
Wanted the same thing
They wanted it all
