Warpaint

1, 2, 3, 4

I've gotta friend with a melody that will kill

She'll eat you alive

Like cyanide, is poison

She'll eat you alive Don't you battle we'll kill you,

Rip you up and tear you in two

Don't you battle we'll kill you,

Rip you up and tear you in two

Don't you battle we'll kill you,

Rip you up and tear you in two Only in the sound of the voices I scream I heard my name now I'm gone, tell me
what I did

You saw me standing on my lone mountain

Dare me play not to put it off

The tears are not worth the wait Your loveliness is so worth it (it's just so worth it)

You're another one in a long long time

Wrestling people for peace

Wrestling people for peace Only in the sound of the voices I scream

Only in the sound of your voice did I scream

Only in the sound of the voices I scream I make room for everyone

I make room for everyone

I need to take a break Do you wanna look in my mind?

Open up and see what you find

Holding on to just what I wanted

Hiding like a force Just behind the door

Well, I wasn't not looking out

For anything anymore but

Oh look what I found I was always talking too much

But always in the sound of my voice

Did I reach out Only in the sound of the voice did I scream

Only in the sound of the voice did I scream
