

# He's Coming Back

## Newsboys

Things are getting tough, you got to hang in there  
When youre just about to quit, let God be God  
When your back is against the wall, His love will be true  
When youre feeling two feet tall, stand upon the Rock You won't be afraid when He is with you  
Dont be afraid for He is with you Hes comin back like He promised He would  
Lets be ready when the trumpet sounds  
Hes comin back like He promised He would  
Lets be ready when the trumpet sounds Hes comin back like He promised He would  
Lets be ready when the trumpet sounds  
Hes comin back like He promised He would  
Lets be ready when the trumpet sounds Things are getting tough, you got to hang in there  
When youre just about to quit, let God be God  
When your back is against the wall, His love will be true  
When youre feeling two feet tall, stand upon the Rock You won't be afraid when He is with you  
Dont be afraid for He is with you Hes comin back like He promised He would  
Lets be ready when the trumpet sounds  
Hes comin back like He promised He would  
Lets be ready when the trumpet sounds Hes comin back like He promised He would  
Lets be ready when the trumpet sounds  
Hes comin back like He promised He would  
Lets be ready when the trumpet sounds Things are getting tough, you got to hang in there  
When youre just about to quit, let God be God  
When your back is against the wall, His love will be true  
When youre feeling two feet tall, stand upon the Rock You won't be afraid when He is with you  
Dont be afraid for He is with you Hes comin back like He promised He would  
Lets be ready when the trumpet sounds  
Hes comin back like He promised He would  
Lets be ready when the trumpet sounds Hes comin back like He promised He would  
Lets be ready when the trumpet sounds  
Hes comin back like He promised He would  
Lets be ready when the trumpet  
When the trumpet, when the trumpet sounds
