Ghost Town

The Vaccines

I've been driving in my car
Trying to find some sign of life
No on'e about and it's kinda creepy
It's an understatement to say it's sleepyIt's a ghost town where no one goes
It's a ghost town where no one goesWell you think your town is pretty boring
Come and spend a day with me
I am asking real politely
I'm afraid to be aloneIt's a ghost town where no one goes
It's a ghost town where no one goesApocalyptic, distressing, needs addressing and I'm guessing
Everybody likes to go... I know, I know, I knowIt's a ghost town where no one goes
It's a ghost town where no one goesIt's a ghost town
Ghost town
